

HARROWS

PAUSE SEATING SYSTEM

The modular design of the Pause Seating Systems allows the user to maximise both the visual impact and functionality of their space. Designed and manufactured in New Zealand, it features a selection of ottomans, lounges and privacy screen components. The unique privacy screen design allows for the creation of private seating areas within shared spaces.

The soft lines and curves create a welcoming and calming atmosphere, ideal for hospitality settings. The versatility of the system is limited only to the user's imagination.
