Colours are indicative only. More options available on request.

# Making flexibility easy.

Manufactured by our team at Harrows, make the Lure your own by taking your pick of any fabric.

Choose from our range of powder coat colours and stain the timber armrests in your colour of choice.

HARROWS

MADE FOR SOCIAL SPACES

# The back story.

The secret to making spaces you want to be in.

Harrows is a family business run by three brothers, Mark, Tim and Rich Suckling who all learnt the craft of furniture making from an early age.

The family was initially focused on manufacturing domestic furniture, until they acquired a small import business and reselling business in 2006 servicing the hospitality sector. It was quickly apparent that there was a large appetite for fresh, different and exciting furniture options in this area, which wasn't being serviced.

Fast forward to today and Harrows has three generations under one roof, with a team upwards of 35 across sales, marketing, customer service, operations and production, with specialist departments in-house for laminating and machining, fitting and assembly, upholstery, polishing and painting. We have expanded our personalised approach and product designs to service all social spaces, not just hospitality.

We believe that good design should be both functional and aesthetically pleasing, but most importantly, accessible to all. To put it simply, it needs to be possible to execute in an efficient and commercially sustainable way. It's an ability to interpret a creative vision and translate it to a practical solution while minimising compromise that sets Harrows apart.
