

PLANE CHAIR

---

# Harrows

CRAFTED FOR CONNECTION

HARROWS.CO.NZ

Crafted for  
connection.

# Introducing Plane

The design of the Plane Chair is made unique thanks to the flat steel planes of the armrests and legs. These intersect with each other to create playful lines and corners, bringing a fresh contemporary feel to any commercial space. Strong yet refined, the Plane's suspended seat creates an illusion that the seat and back are floating.

Playful lines,  
seamless  
comfort.

### Upholstered Armrest

Opt for upholstered armrests in matching or contrasting fabric to add a softer, more refined touch.

### Steel Frame

Constructed with unique flat steel planes forming the armrests and legs, creating a distinctive, architectural look.

### Ash Armrest

Crafted from solid American ash, the armrests can be stained in any standard colour.

### Comfortable Design

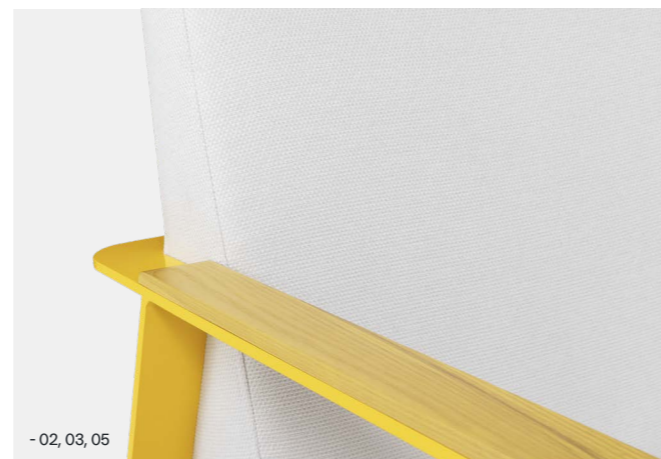

A suspended seat design gives the illusion of floating while providing structured, supportive comfort.
