

RELATE PLANTER

Harrows

CRAFTED FOR CONNECTION

[HARROWS.CO.NZ](https://harrows.co.nz)

Crafted for
connection.

Introducing Relate

A free-standing planter system with a natural timber exterior and a simple solution for planting and maintaining pot plants. With a pot liner already included, just place your standard nursery pots and create beautiful screening with timber accents.

Configure multiple units alongside each other to create screening and bring biophilia into any space.

Climbing Planter

Option for mesh screen to encourage climbing plants, powder coated in colour of choice.

Low or High Planters

With or without a screen, Relate Planters are available in 2 heights. 400h for a low planter, or 820h for more privacy.

Pot Liners for Easier Plant Integration

Relate includes pot liners as standard, meaning the right size plans can be slotted in, accommodating a standard nursery pot up to 4.5L or 215mm, allowing the right drainage and meaning no planting onsite.

2 Lengths

Each Relate variation is available in 2 lengths. 1050 long to support 3 pots, or 1600 long incorporating 4 pots.

Ash Veneer Base Stained

With a curved Ash Veneer exterior, the Relate design is aesthetically softer than other planter options, and finished in your choice of stain colour.

Freestanding

Relate is a freestanding screening solution. Thanks to its pot liner design it is easier to move.

Soft Boundaries, Strong Connections

2 Pot Planter System

No need for messy transplanting. Just place the standard nursery pots that your plant comes in directly into the pot liner and add topping for a fully planted look.

Fully Planted Look

Liner pots are set down from the outside edge to allow for bark, coconut fiber or topping of choice to be laid around plants to create a fully planted look (fill not included).

Nursery Pot

Slip standard nursery pots up to 4.5L directly into the watertight pot liner (plants and nursery pots not included).

Pot Liner

Planters include a watertight pot liner as standard, allowing for easy watering and no drips or mess. Pot Liners have a 215mm opening, tapering to 140mm at the base, and a depth of 190mm.

Crafted for any connection.

Collaborate

Spaces for collaboration to build community without hierarchy

Meet

For more formal collaboration, projects and teamwork

Social

Places to gather connect and build friendships

Key Features

- 01
Freestanding planter
- 02
Ready to accommodate standard pots,
no additional planting required
- 03
Curved timber veneer exterior
